## PROJECT

**Research on Developing economic indicators for universities as part of regional ecosystems**  
*Research Assistant for Dr. Alev Atak*

- I have worked as a research assistant for Dr. Alev Atak on her research paper.
- I have used R and Python programming languages for data analysis.

<b>Research on Economic Growth's Impact on Gini Coefficient</b> <i>Bachelor's Independent Study</i>	<b>01.2023</b>
--	----------------

- Analyzing historical data for testing the hypothesis about economic growth and Gini coefficient are being correlated.

**Vaccination's Effect on Hospitalization****01.2022***Research Paper for Introduction to Data Science Class*

- Compared high vaccinated and low vaccinated countries hospitalization and death rates.
- Used R Programming Language to obtain, interpret, and visualize the data.

**Turkish Technology Park's Evaluation****01.2022***Research Paper for Economic of Technology and Development Class*

- Compared the Science Parks in Turkey with Science Parks in South Korea.

**Research on Turkey's Trade with Germany and Malaysia****07.2021***Research Paper for International Trade Class*

- Compared Turkey's trade with Germany and Malaysia. Used data between 2007 - 2019 and compared the changes on Turkey's trade pattern with those countries.

**Research on Importance of ALES on Becoming a Research Assistant****06.2018***Research Paper for Research Methods Class*

- Found the significance level of ALES (a generalized test for graduate studies in Turkey, like GRE).

**Research on Economic Growth of Asian Tigers****01.2018***Research Paper for Research Methods Class*

- Analyzed the phenomenal growth of Four Asian Tigers.

**SKILLS****Programming**Python, C++, R, L<sup>A</sup>T<sub>E</sub>X, Java (intermediate), C (intermediate), Stata (intermediate)**Communication**

Turkish (native), English (fluent), German (beginner)

**Other**

Microsoft Office
